It does take some doing but I think it can be done. That's why I want to tackle is comprehensively, not just one building at a time because I don't think the responses are happening that way. I think when we met, we talked about possibly pics of all the affected buildings in your BID area. Is that something that can be sent? I can ask someone here to go walk it and document it if it's not do-able.

Thanks!

Jessica

So I got this from our project manager at Chrysalis. The way her email is worded it makes it sound like the city scales buildings and paints out graffiti. I'm skeptical. Thought that was on the property owner.

Hi guys,

Happy Friday!

Received these pictures re: large graffiti on the back of buildings. Photo taken from Hill between 7th & 8th. I will report to 311, but my understanding is large requests like this require additional strings to be pulled. How can I help? Happy to contact the property owner. I owe you the exact address (buildings face Broadway). Will get that to you early next week.

Thanks!
